Please read the following information and print your name and sign at the bottom:

- Persons should not wear metal, use a computer or cellular phone during an Ionic Detox session.
- Persons with low blood sugar should eat before using the Ionic Foot Detox.
- Though not dangerous, persons have a metal joint implant may find exposure to the electromagnetic field generated by the lonic Foot Detox to be uncomfortable. If discomfort is experienced, the session will be stopped immediately.
- Persons taking prescription medication should take meds after or 4 hours prior to their session.
- Because the lonic Foot Detox is designed to aid the body in eliminating toxins that the kidney and liver cannot eliminate on their own, as a general rule, it may be used by persons on dialysis or by those diagnosed with diabetes or congestive heart failure. However, persons with these conditions or any other medical condition, should consult their physician prior to implementing the lonic Foot Detox as part of their wellness program.
- In addition to toxins being pulled out of the bloodstream, valuable electrolytes (calcium, potassium, sodium, and magnesium) may also be purged from the body. To safeguard against this possibility, users are encouraged to drink an Emergen-C or have some minerals in water directly after their session.

Disclaimer: We do not make any claim to offer cures or treatment of any diseases or illness. If you are sick, please consult with your doctor.

Acknowledgement: By signing below, you acknowledge that you have read and understand this document, and have received acceptable answers to all of your questions and consent to receiving an lonic Foot Detox. You hereby agree to release Floating Lotus Spa from any liability or damage that may incur due to the use of the BioCleanse Ionic Foot Detox.
